Rubber O-rings & EPDM come in bags of 25, Vitons come in bags of 10,
 Rubber O-rings are in black print, Viton #'s are brown, EPDM are purple

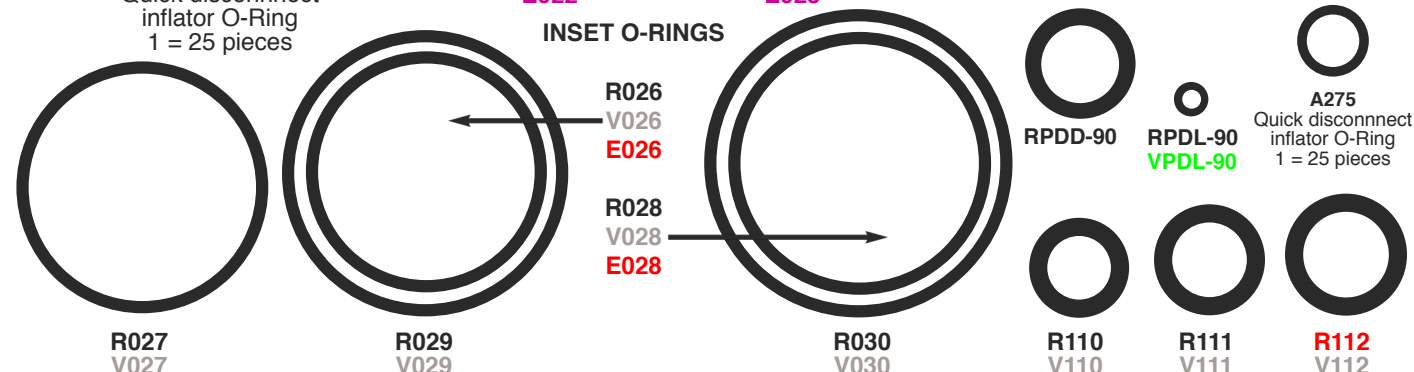

Our most popular O-rings are in RED color print.
 All are 70 durometer unless noted

Quick disconnect
 inflator O-Ring
 1 = 25 pieces

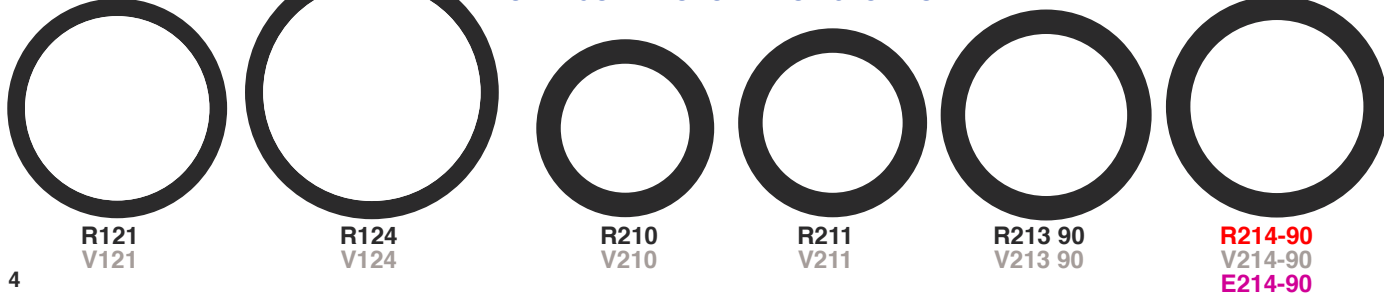

INSET O-RINGS

O-rings should be changed annually at a minimum on most products
 Our most popular O-rings are in RED color print. All are 70 durometer unless noted

O-RINGS ARE SHOWN AS ACTUAL SIZE

What's New With OMNISWIVEL

The greatest swivel ever made just got a whole lot better!

New Features

-New side interlocking feature makes it *impossible* for the swivel to come apart.

-O-Ring added to the main swivel screw keeps sediment out.

-Existing swivels can be retrofitted.

Omniswivel 2.0

REFIT KIT AVAILABLE

Retrofit any existing swivel with our new swivel 2.0 with side locking system.

Order Part number OK-S2.0-R

Part

OS-SWS -Standard (9/16-18)

OS-SWA -AGA

OS-SWPE -Poseidon Extreme

OS-SWPC -Poseidon Cyclon

The Max N2+ Nitrogen Analyzer was designed with simplicity and portability in mind.

Its uncompromised reliability and splash resistant design makes it an excellent solution for nitrogen analysis in nearly any application.

Its patented ergonomic design fits comfortably in your hand and features a simple one-touch on/off and calibration.

24 month warranty on both the analyzer and the sensor
5,000+ hours operation on 2 AA batteries

Easy one touch calibration

Item # A-MAX N2+

O2EII PRO - NITROX ANALYSER

The O2EII Pro is the ideal portable nitrox (nitrogen and oxygen) analyser,

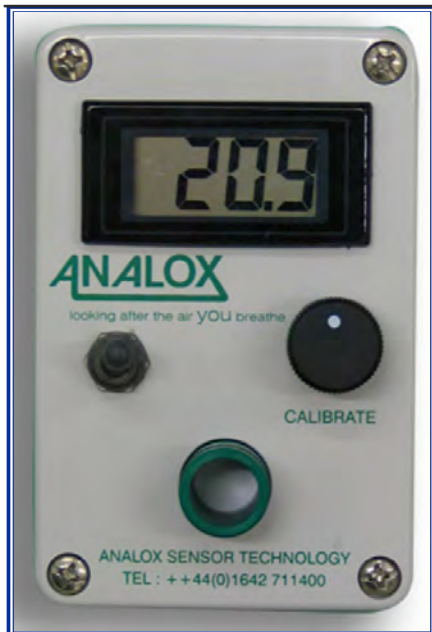

ITEM # A-ELLPAYYA

Package includes an O2EII Pro portable nitrox checker with LCD display.

Please note that the O2EII Pro does not come with a BCD flow restrictor.

The O2EII Pro nitrox analyser is a highly accurate device and a must have for any scuba diver.

The unit comes with a three-year graded sensor warranty and has an expected sensor life of four to five years in air.

O2 PORTABLE - GAS CYLINDER MONITOR

The O2 Portable is a versatile oxygen monitor for sport divers. It can be used for cylinder verification by divers and as an on-line monitor for filling stations and diving schools.

Item # A-MO2BGYY01

The O2 Portable comes with a range of 0-100% O₂, long-life cell, standard adapter and domed flow adapter/restrictor.

The O2 Portable is an oxygen monitor supplied with different sampling adaptors

As well as being robust, easy to use and accurate, it has a three-year graded warranty.

Item # A-9100-9220-9B

O2EII & O2EII PRO REPLACEMENT OXYGEN SENSOR

This product (replacement oxygen sensor) is an accessory for the O2EII Pro nitrox analyser and O2EII nitrox analyser.

Item # A-9100-9212-5AD

O2 PORTABLE REPLACEMENT OXYGEN CELL

This product (replacement oxygen cell) is a spare product for the O2 Portable.

Item # A-9100-9212-94

ATA PRO - REPLACEMENT OXYGEN SENSOR

This product is a replacement oxygen sensor for the ATA Pro trimix analyser.

Note that this product is not compatible with the 8000.

The "New" Preferred Lubricant for oxygen-safe scuba diving applications

With breakthrough science and technology, Tribolube's® revolutionary formulas make underwater breathing easy, no matter what the climate. And, unlike other products, the Tribolube® scuba-specific system offers superior extreme pressure and anti-wear properties extending equipment life by dramatically reducing corrosion and sticky, residue buildup.

In addition, innovative packaging allows for a more accurate application, making Tribolube® products easier to use than the competitive brands.

The Tribolube® line of O₂ safe lubricants are compatible with all o-rings and materials used in the scuba industry – leading the way to safer, easier and more enjoyable diving experiences.

Use Tribolube® products.
Dive with confidence and peace of mind.

The "Total" Package Lubricants • Cleaners • Protecterants

Available in a variety of sizes, our lubricants are non-toxic and oxygen-compatible.

Tribolube® 71 is designed for static and dynamic applications. For use with rebreather systems and NITROX applications.

Available in a variety of sizes, our lubricants are non-toxic and oxygen-compatible.

Tribolube® 66 is designed static applications. For use with all NITROX and O₂ applications.

Tribolube® KO₂ solvent cleaner is designed for the removal of PFPE lubricants used in open and closed circuit diving systems. This solvent should be used in conjunction with your standard oxygen cleaning system process.

Tribolube® EPO₂ protecterant is non-toxic; formulated to protect brass and other metals; and LOX/GOX compatible.

OXYGEN COMPONENTS

O2 regulators and mask are produced by the leading manufacturer in the medical field

FA76

Brass multi function regulator
with 12 position flow 0-25 LPM
Dual high flow DISS fittings

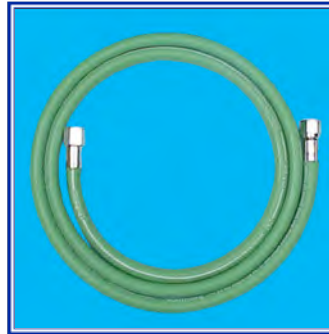

FA72

Free flow adjustable regulator
with tube connection only

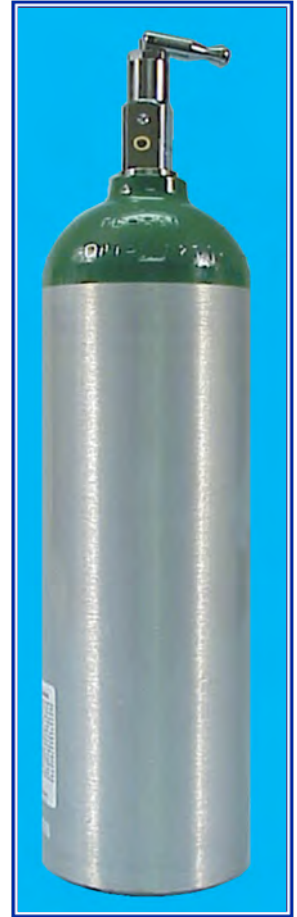

FA77

O2 Demand valve
for use with FA69 mask

A124

Green 6 ft. O2 clean pressure
hose for use with FA76 and
FA77 valves

FA75

Jumbo D cylinder
22.85 cf. 646 liters
2216 psi / 153 bar
with easy on valve

FA68

Non-rebreather mask,
provides O2 to breathing divers
who can not tolerate demand valve O2

FA79

O2 safe washer for
FA76 regulator

FA78

Handwheel wrench
for use on brass
multi-function regulators

FA69

True fit clear silicone mask,
compatible with
FA77 demand valve

A241

"Handi"
O2 oxygen analyzer,
simple to use,
one touch calibration

POCKET MASK

FA96

Pocket mask with O2 adapter and case

FA95

Standard pocket mask with case

A293

O2 CGA-870
Toggle valve

A294

White washer for O2
valves for CGA-870

PERSONAL OXYGEN KIT

The Personal Oxygen Rescue kit allows for approximately 15 minutes of emergency oxygen at 15lpm. Housed in a SEAHORSE® SE720 allowing for great protection from any environment. Lightweight and portable it is great for situations when oxygen is needed close to emergency personnel.

Just like the Personal Oxygen Rescue Kit, the Single and Double Oxygen Rescue kits are great when emergency personnel are immediately available. Both the Single and Double are housed in a SEAHORSE® SE920 and allow for approximately 40 or 80 minutes (Single is 40 and Double is 80) of emergency oxygen at 15lpm.

A194

DIN converter
Fits most newer
type Scubapro regulators
MK-10, 15, 20 & 25
With MK-2 using R015 o-rings

AA65

Sherwood type DIN
regulator converter

S240

Yoke to DIN to 1/4" NPT

AA66

200 bar DIN to standard yoke, for
tank filling to 3000 psi
uses R112 o-ring

AA79

300 bar DIN to standard yoke, for
tank filling to 3000 psi

A101

DIN 300 to standard yoke
converter for 3000psi
tank filling
uses R112, R014 o-rings

A100

Converts DIN
regulator to std.

S143

Yoke and Knob with
1/4" NPT female end
with bleeder
**Uses 2 pieces
R010 to rebuild**

A300

Yoke and Knob with
1/4" NPT female end

A249

Scuba yoke block

SA13

Tank filler assembly with
bleeder valve

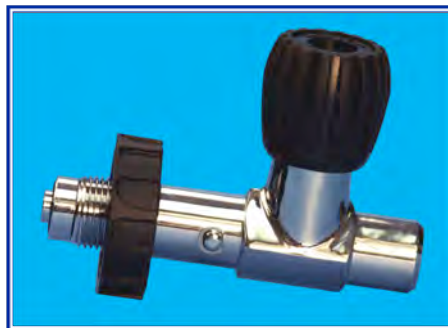

A306

1/4" NPT X 2 males

A102

1/4" NPT X 2 Females

S182

DIN tank filler assembly, 1/4" NPT,
push-button bleeder and shut off

S181

Tank filler assembly, 1/4" NPT,
push-button bleeder and shut off

A301

DIN to Bleeder block with
1/4" NPT female end

S113

Pneumatic tank filler assembly, 1/4" NPT with push-button bleeder

S110

Pneumatic tank filler assembly, 1/4" NPT, push-button bleeder, and shut off

Pneumatic valves should be serviced regularly depending on use. A154 is suggested for proper O-rings

S111

Inline shut off valve
1/4" female NPT ends

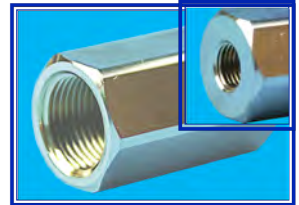

S114

1/4" NPT female to
female bleeder valve
with bleeder screw

A305

Brass 3 way
1/4 NPT X 3

S239

Female DIN block
to 1/4" NPT female

S154
Rebuild kit for S111 and for
S181 valves. Includes
bonnet nut, stem, seat,
o-rings and teflon washer

SA12

Replacement
bleeder screw for SA13

A154

Special O-ring rebuild
kit for adapters
S108, S110 & S113

The Diver's Reserve Parachute

Underwater Photograph by Benjaiglesis.com

A skydiver wears a reserve parachute, a SCUBA diver should have a reserve breathing system. For 40 years Spare Air® has been a better safety option than an octopus and buddy breathing. In an out-of-air emergency, why would you trust your life to anything else? Visit spareair.com and read why sharing air is NOT the solution.

TA52-R

TA53

TA54

TA58

TA56

TA52-R Round rim for 7.25" aluminum tanks, flat bottom

TA53 Hex rim for 6.9" steel tanks, round bottom

TA54 Hex rim for 8" aluminum tanks, flat bottom

TA55 Hex 7.25" steel tanks, round bottom, Not pictured

TA58 Hex rim for 8" steel tanks, round bottom

TA56 Hex rim for 6.9" aluminum tanks, flat bottom

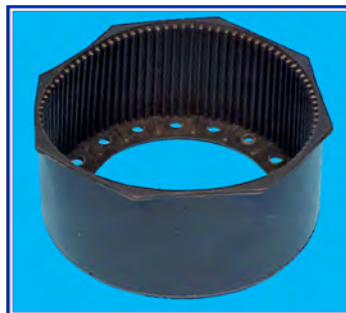

Tank boots are about 3.5" in height from inside bottom to top of boot

USED plastic tanks boot are not returnable for any reason

The boots are designed to take a limited amount of abuse, while absorbing the heavy shock from putting a heavy load on them.

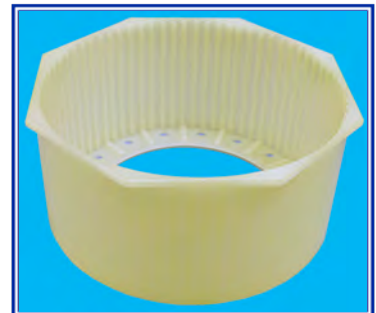

Each time they are overstressed by ungente poundings they will eventually break down.

To install hard plastic tank boots;
Lift tank by valve about 8", while holding valve,
drop straight down onto and into the tank boot.
It's a snug fit

TA57

Soft unbreakable
 "rubber" tank boot
 for 7.25" aluminum tanks

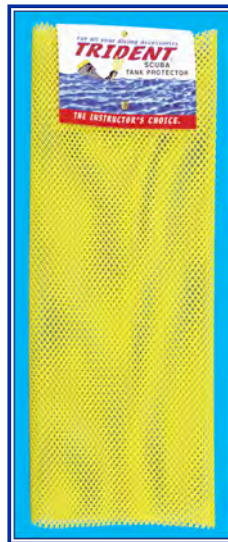

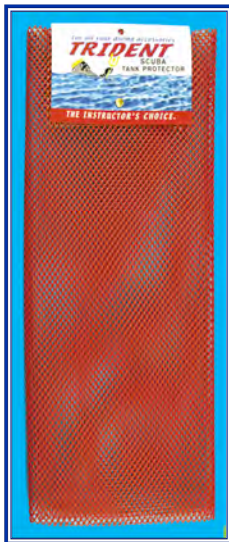

TA50

GLOWS IN THE DARK
 "plastic" tank boot for
 7.25" aluminum flat bottom tanks

ULTRALIGHT BAGS

These are the lightest bags we offer. Ultralight Bags offer dry bag protection without the weight. Our Mesh Ultralight Bags pack so small you don't even know you have them. But when you need them, they expand into large bags that are perfect for dirty socks, underwear, shirts, rash guards, and more.

3 BAG ASSORTMENT KIT

Ultralight Mesh Stuff Bags
Ultralight, see through nylon mesh,
for storing everything
Simple Drawstring Closure.
Ultralight for easy travel.

Item # GBS-7

Comes with 1 bag each of:
Green 6 Liter, Blue 12 Liter
and Orange 24 Liter
(3 Bags total per kit)

DRY BAGS

Dry Bags are an essential piece of travel gear for any boating, jeep, off-road, snowmobile, fishing, hiking, adventure travel, or motorcycle expedition. Nothing keeps your gear secure, dry, and free of dirt, mud, snow, water, silt like Stuffsack.com Dry Bags. Our Dry Duffels are built to withstand the harshest elements without breaking the bank.

Dry Duffels easily open like a traditional gym style duffel bag.

The Roll Down opening secures the interior compartment from external elements like water.

The seams are all welded to prevent water from entering the bag via the seams.

The shoulder Sling makes it easy for carrying.

The center handles help you carry the bag comfortably.

This is important if the bag is heavy.

Durable & Waterproof material allow this bag to handle the toughest conditions.

PVC fabric with welded seams for strength and durability

Includes straps to give multiple ways to carry.

Convenient to carry, pack, or stow.

Welded Seams and Roll down design protect gear from water, dirt, mud, and more.

Item # GBS-1

Underwater laser pointer, to 150 ft depth, easy grip handle, uses 2 "AA" batteries (included)
Use for pointing out objects, or spearfishing

B600

Fish Flips
Baja California

SEA FANS

SNORKELERS

Identification charts to Fishes of the sea

SF12

Sea Fans guide to
Fishes of the Hawaiian Islands

SF10

Sea Fans guide to
Fishes of the Pacific Coast

SF02

Sea Fans guide to
Fishes of Florida

**There are many ways to attach
the SEA FANS for use underwater**

**Suggestions include:
Lanyards or pull down retractors**

Each **SEA FAN** Identification guide to Fishes of the Sea contains full-color prints with each fish's name printed in large easy to read type.

The 2" X 3" cards fan out and are printed on each side of durable UV coated waterproof material for years of easy viewing.

**Tarnish-free Rhodium-plated brass,
with attractive, durable chip inlay
of simulated red coral and mother of pearl.**

**Rhodium is a rare, silver to white metal
that belongs to the platinum group of metals.
It is about 10 times more costly than gold,
but because it is a "noble metal" and inert,
it will not tarnish and makes jewelry more durable.**

USE OF SIMULATED INLAY IN DIVE FLAG JEWELRY PROTECTS OUR REEFS!

**G965 - Ring size
DIVE FLAG RING**
Sizes: 6.5, 8.5, 10.5, 11.5, 12.5

THERE'S NOTHING WORSE THAN HAIR GETTING IN YOUR FACE WHILE YOU'RE TRYING TO HAVE FUN IN THE WATER.
WE DECIDED TO DO SOMETHING ABOUT IT.

BANG WRANGLER

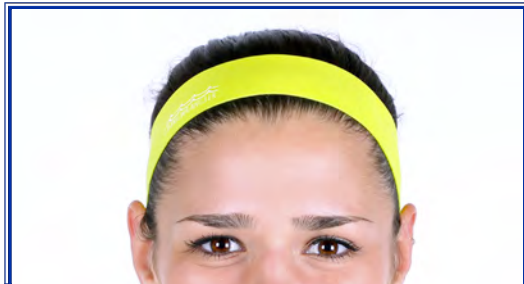

NOW THERE'S A STYLISH WAY TO KEEP HAIR AT BAY WHILE PARTICIPATING IN FUN ACTIVITIES LIKE SURFING, KAYAKING, SNORKELING, SCUBA DIVING, SWIMMING, WINDSURFING... WHATEVER FLOATS YOUR BOAT. (PUN TOTALLY INTENDED.)

THE BANG WRANGLER IS MADE FROM A SOFT SILICONE, SO IT STAYS IN PLACE BUT DOESN'T PULL HAIR.

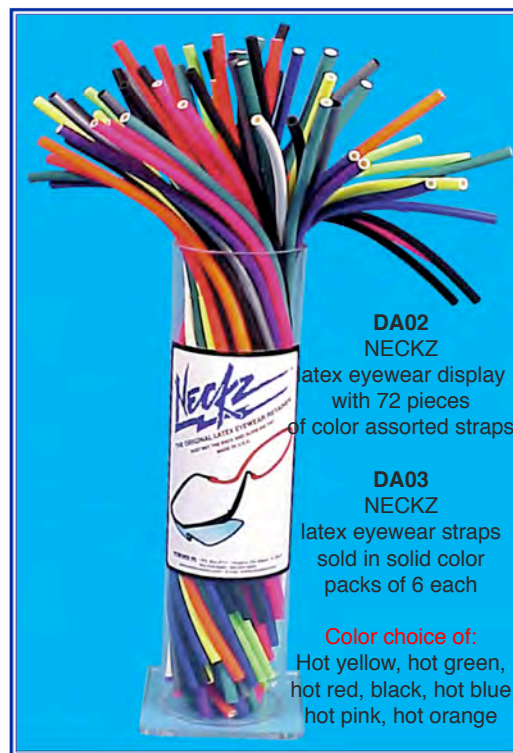

READY TO WRANGLE YOUR BANGS?

the AquoLung i3 Control System

D728V

D729V

ABOVE WATER DIVE ALERT STANDARD

DiveAlert is a specially designed, small, light weight air horn that uses quick-connect / disconnect hose couplings to become an integrated part of your power inflator and buoyancy compensator.

Installation is easy and only takes a moment.

DiveAlert uses a small amount of air from your SCUBA tank to make a piercingly loud sound.

People have been able to hear a DiveAlert one mile away from a diver in need.

In conditions where visibility is limited, a DiveAlert can be a life saver.

D612

Dive Alert for SeaQuest AirSource, Apeks Octo Plus, Zeagle Octo Plus, Beauchat Venturi, Aqua Lung Air Mic, and Oceanic Air XS

The Diver's Reserve Parachute

Underwater Photograph by Benjaiglesis.com

A skydiver wears a reserve parachute, a SCUBA diver should have a reserve breathing system. For 40 years Spare Air® has been a better safety option than an octopus and buddy breathing. In an out-of-air emergency, why would you trust your life to anything else? Visit spareair.com and read why sharing air is NOT the solution.

SCUBA DIVER KIT

This entry level kit is for minor injuries and illness. All the supplies you will need to care for wounds from bleeding control, cleaning and disinfecting, to covering the wound. Includes meds for stings, burns, allergic skin reactions, electrolyte loss, minor aches & pains, allergic reactions and motion sickness.

FA431 - Hard Case
FA428 - Soft Case

ADVANCED DIVER KIT

Everything you will find in the Scuba Diver Kit plus additional items that include eye wash, swimmers ear, syringe for irrigation, trauma shears, razor, vinegar, and more. These items deal with marine life bites & stings.

FA435 - Hard Case
FA433 - Soft Case

RESCUE DIVER KIT

Everything in the Scuba Diver and Advanced Kits with increased quantities, plus additional instruments and supplies to handle anything from minor cuts and scrapes to severe injuries with potential for major blood loss. Additional items include bloodstopper bandages, eye pads, iodine prep pads, emergency blanket, instant hot and cold packs, pen light, safety pins, and larger gauze wraps, elastic wraps, gauze pads, cloth tape and vinegar.

FA432 - Hard Case
FA430 - Soft Case

LIONFISH STING KIT

FA363

Everything to clean, care for and neutralize a lionfish wound. Included are band aids, gauze wraps, elastic wraps, forceps, scissors, gloves, instant hot packs, razors, sterile solution for irrigation, hydrocortisone cream, triple antibiotic ointment, and more.

STING RELIEF+ KIT

FA423

Everything to handle a marine life bite or sting. Included are band aids, gauze wraps, elastic wraps, forceps, scissors, gloves, instant hot packs, razors, sterile solution, hydrocortisone cream, triple antibiotic ointment, and more.

DIVE MASTER KIT

The "Dive Master Kit" is the first product in our professional diver line. This kit includes everything needed to control bleeding, clean, disinfect and cover a variety of wounds, from minor scrapes and cuts to major traumatic injuries. Also included are over the counter medications to care for common ailments such as motion sickness, pain and electrolyte imbalances, as well as supplies to treat marine related bites or stings. Finishing off this kit are all of the instruments you will need including trauma sheers, tweezer forceps and a high quality tourniquet. You have taken your training to the professional level; why not ensure you have the tools to match. Available in a padded soft case with shoulder strap, or a waterproof SKB® hard case.

FA438 - Hard Case

FA436 - Soft Case

INSTRUCTOR KIT

O2 Tanks & First aid kits

ARE EXCLUDED FROM FREE FREIGHT PROGRAM

The "Instructor Kit" has everything in the "Dive Master Kit", plus more. With an increased number of dressings and wound supplies as well as full bottles of medications and skin preparation products, rather than unit dose packages, you have the right amount of supplies need to care for those you teach. Available in a padded soft case with shoulder strap, or a waterproof SKB® hard case.

FA440 - Hard Case

FA439 - Soft Case

PRO O² KIT

The "Pro O² Kit" is one of our top of the line kits in our professional series. This kit contains everything found in the "Dive Master Kit" and "Instructor Kit", in equal or greater quantities, but also includes an M-7 oxygen tank, variable 15lpm regulator, and a non-rebreather O² mask. Designed with the high level professional diver in mind this kit will enable you to handle anything that comes your way, as well as ensuring your students are in the hands of someone who not only has the training to teach them safe diving, but the equipment to back it up. Available in a padded soft case with shoulder strap, or a waterproof SKB® hard case.

FA362 - Hard Case

FA310 - Backpack

PERSONAL OXYGEN KIT

The Personal Oxygen Rescue kit allows for approximately 15 minutes of emergency oxygen at 15lpm. Housed in a SKB® 3i-1813-7 allowing for great protection from any environment. Lightweight and portable it is great for situations when oxygen is needed close to emergency personnel. Just like the Personal Oxygen Rescue Kit, the Single and Double Oxygen Rescue kits are great when emergency personnel are immediately available. Both the Single and Double are housed in a SKB® hard case and allow for approximately 40 or 80 minutes (Single is 40 and Double is 80) of emergency oxygen at 15lpm.

COMMERCIAL DIVER

FAK-360

Commercial Diver Kit

Built by divers for divers, the Commercial Diver Kit is the only first aid kit that a commercial diver would need. This kit was designed to meet all the regulations that commercial divers are faced to with. Approved and accepted by the ADCI (Association of Diving Contractors International), USCG (United States Coast Guard), OSHA (Occupational Safety and Health Administration), USACE (United States Army Corps of Engineers), and for use in Hyperbaric/Decompression Chambers, this kit has it all. Using the SKB® with a hard plastic shell and a watertight seal, this case provides the ruggedness and durability needed in commercial diving. Inside, you will find the same style and design as our other professional kits, allowing for easy and fast response in dealing with any emergency. With the Commercial Diver Kit you will have assurance in knowing your job site is safe, secure, and ready for any emergency. Get yours today and put your mind at ease.

FAK-333

O2 & AED Medical Kit

COMMERCIAL DIVER WITH O²

Also available is our Commercial Diver Kit with Oxygen. Built in a SKB®, this kit has everything our Commercial Diver Kit has but includes a full oxygen kit. The oxygen kit contains a jumbo D oxygen cylinder (Standard Green or International White), non-rebreather mask with 7' tubing, and pulse oximeter. This is the perfect kit for dive operations that want to keep all their emergency oxygen and first aid supplies in one case.

COMMERCIAL DIVER WITH O² & AED

Want to take your first aid kit to the next level then get our Commercial Diver Kit with AED and Oxygen. While maintaining compliance with commercial diving standards this kit has the additions of a full oxygen kit and a complete AED kit. Within a SKB® you will find the same style and design as our other professional kits, allowing for easy and fast response in dealing with any emergency. This kit is the ideal solution for operations that need a comprehensive first aid kit with limited space.

HAND HELD ELECTRONIC DEPTH METER

D730

Electronic depth meter, accurate to 250 feet, floats, lighted display, with continuous scanning option, uses 1 "9 volt" battery, beam angle 24 degrees

Carter Bags have one or more handles and tie-off points to make them easy to secure both in and out of water.

Are designed to be folded and rolled into compact, negatively-buoyant, easy to handle and deploy underwater.

The over-pressure valves adequately vent the air from a fully-charged bag on a free ascent from any depth.

Stock Number	LIFT Lift (lbs)	SHIPPING WEIGHT (lbs)	Width x Height	SURFACE VOLUME (63lbs/cu ft)
CB-25 no dump valve	25	1	15" x 20"	0.4

MAGNA CLIP™ LANYARDS

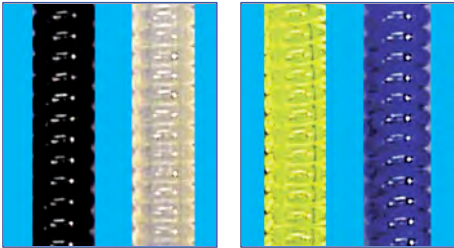

High strength stretch (to 36") coils provide connected security to Consoles, slates, small lights, fish cards, gauges and more. Each of the different ends make attachment easy. Caution should be used due to the magnet being the bond of attachment,

MAGNA CLIPS™ are not designed for use with heavy or large objects.

The user should test this product for it's intended use prior to use. Patent #D453.266S

WARNING: The below listed MAGNA CLIPS **DO NOT** have a safety coil lanyard. Trident or any seller is not responsible for any products or objects lost during the use or misuse of these products. As with all Trident accessory items, the user should determine the safety and suitability of each product for their intended use, prior to use. The MAGNA CLIPS were not designed for use with heavy or large drag items.

▶ Console Retractors *Keeps console close at hand, easy to use!*

No more searching for your console... It's always secured in the same place—never dangles or drags on the reef.

Locking Console Retractors **Force: 24 oz. Extension : 32"**

Longer extension allows console to be secured in the traditional area near the waist

- ▶ **Locking GK Deluxe**
RT3-5913
Snap Clip
Item #R578

▶ *Deluxe unit includes extra Lanyard for consoles that don't have any easy connection point*

Snap Clip
Item #R537

- ▶ **Mini GK Console Combo Mount**
RT4-5973 Combo
Snap/Threaded Stud
#R570

Combo Mount includes two mounting systems in one package. Allows for the most versatile gear configuration

Stainless Steel Threaded Stud: Penetrates strap or pocket, screws into back of Gear Keeper and essentially mounts anywhere. Ideal for custom installations where a D-ring is not convenient.

Snap Clip Mount: Snap Clip for easy connection to D-rings. Removeable when using Stud Mount

Snap Clip Mount is the most common version. Easily connects to D-ring of BC

Large SS gate rotating Snap Clip attaches to the large BCD-rings

▶ Small Tool Retractors

Recommended for slates, knives, lobster gauges

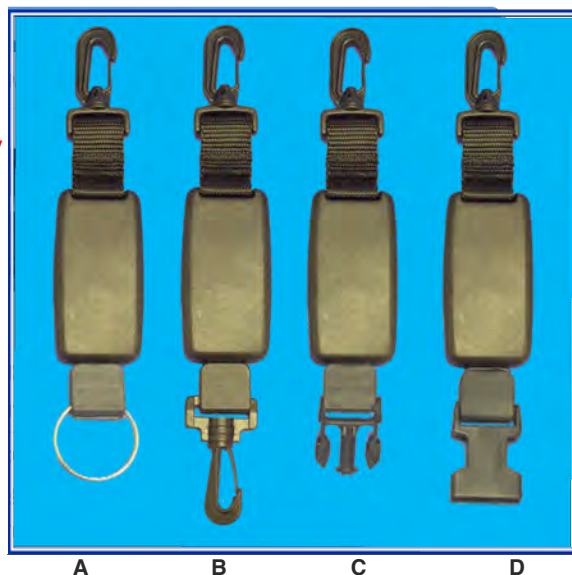

- ▶ **Snap Clip Mount**
RT4-0040 Force: 3 oz. Ext : 36"
RT4-0041 Force: 6 oz. Ext : 36"
#R571 = 3oz
#R580 = 6oz

B

C

D

Flashlight Retractors *Best way to secure and use a flashlight while diving*

Flashlight is easy to find, easy to use... Does not inhibit your hands like a wrist lanyard... Does not drag and dangle like a coiled lanyard

Locking Flashlight Retractors Force: 12 oz. Extension : 42" Lights 3C to 8D, Rechargeables & Cameras

- ▶ **Locking GK Deluxe**
RT3-5912
Snap/Bracket

Item #R577

Proper retraction force is essential for flashlight applications...too much force for heavy lights will fatigue the user

Locking mechanism is designed for securing light on land...when diving, unlock unit and the moderate 12 oz retraction force will easily secure a flashlight or camera without fatiguing the diver

Locking the Gear Keeper in the extended position is not advised...it eliminates retraction benefits

- ▶ *Deluxe unit includes extra Lanyard for difficult connections and a mounting bracket for attaching to BC straps or weight belts*

Lock it on land; Unlock under water

- ▶ **Locking GK Basic**
RT3-0012-A
Snap Clip
#R549

- ▶ **Locking GK Brass Bolt**
RT3-0082
Brass Bolt
#R544

- ▶ **Locking GK SS Snap**

#R555

- ▶ **RT5-5902 Threaded Stud**
#R556

- ▶ **RT5-5906 Carabiner**
#R583

SCUBA Products

Retractable Gear Attachment Systems

First engineered for SCUBA diving, the Gear Keeper is a rugged, retractable gear attachment system, designed to utilize and protect gear in **severe environments with maximum break strength and durability.**

The Gear Keeper is at the core of an extensive product line that boasts an impressive array of benefits and features: a **patented flushing system** that clears sand and debris from the unit, is **salt-water proof**, and will withstand **high-temperature** environments; a **patented Q/C Connector System** that provides quick and easy connection/disconnection of gear.

The **RT3 series** features **80# break-strength** and uses Spectra/Nylon line. The **RT2 series** and the **RT4 series** features **60# break-strength**. The **RT5 Series Micro** features a **40# break-strength** and uses a Spectra/Nylon line. All series feature high-impact housing, multiple spring forces and multiple mounting options.

All SCUBA retractors feature the exclusive (**Quick Connect**) System that allows gear to be easily disconnected from the Gear Keeper® while keeping gear close at hand and reducing the overall length of the tethering system.

Choosing the right Gear Keeper is easy because they're packaged by application (console, flashlight, etc.): the right force, mounting option, and accessories needed.

Gear Keepers are Designed for Harsh Salt Water Environments

To extend retractor life in salt water environments, we recommend rinsing the unit after each use to prevent the formation of salt crystals on metal components.

Gear Keeper Retractors Systems are designed with a patented flushing system that allows for easy cleaning as well as flushing sand and debris from internal mechanisms.

Manual Flushing Instructions:

Operate unit in fresh water (extending and retracting) for 5 to 10 cycles.

If unit is packed with sand or debris, submerge unit in fresh water with line facing upward. Allow unit to fill with fresh water. Turn unit so line faces down and operate rapidly 5 to 10 times. Repeat if necessary.

■ Brass Snap Clip Mount

SeaCURE “THE BEST” IN MOLDABLE MOUTHPIECES

SeaCURE Class 1 #R401 Color choices of: Clear, Pink, Blue or Black

fits standard orifice regulators (size 1-1/4" x 3/4") APOLLO, AQUA LUNG— older metal regulators. BEUCHAT Evolution, Iceberg & Nitrox, VXT8, VXT Octo, VX4, BRIDGESTONE, CRESSI-SUB (except Ellipse uses a Professional II), DACOR - after 1992, DIVE BUDDY, IST (except Proline is a II), NDS, OCEAN MASTER, PRO SUB (Avalon), SAEKO-LINE, SAS, SCUBA PRO (except A700 uses a II), SEAC, SHERWOOD (most early models/Brut/Shadow/Magnum II/Oasis/pre 1992 Blizzard), SPARE AIR, TABATA/TUSA (not TUSA Imprix)

Snorkels – SeaCure fits many removable mouthpiece snorkels on the market.

AMICO, CORAL, CRESSISUB, DACOR, DIVE BUDDY, KAPITOL REEF, NETEX, REEF BUDDY, SEAQUEST

SeaCURE Class 2 #R402 Color choices of: Clear, Pink, Blue or Black

fits intermediate size orifice regulators (size 1-7/16" x 7/8"), ABYSS Explorer, AERIS, AQUA LUNG newer, including Titan + Legend, BEUCHAT VS3, VS4, VS8, VX10, DACOR Viper + Eagle, DIVE RITE, including O2optima rebreather, but not the Jet Stream 4500, FORTE, GENESIS, HALCYON REBREATHING, INNERSPACE Megalodon rebreather, MARES-newer models (but not MARES MR-12-II, III, IV or V), OCEAN EDGE, OCEAN REEF, OCEANIC (cannot fit Zeta), ODYSSEY, SCUBA MAX, SCUBAPRO A700, SEAQUEST, (now APEKS), SHERWOOD (Maximus, Oasis, 2/92 and newer Blizzard, SR1), SPORASUB, XS SCUBA (previously IDI, Osprey is a I), ZEAGLE

Snorkels – SeaCure fits many removable mouthpiece snorkels on the market.

CHIARO, H2 ODYSSEY, IDI, PARKWAY, PIC, TECHNISUB

SeaCURE Class 3 #R403 Clear only

Same diameter as a Class 1 with double retention ribbing, AQUA LUNG older plastic regulators including Micra (these regulators do not have the conventional retention lip on the mouthpiece orifice common to all other regulators and therefore no other SeaCure model, should be used), AQUATEC, SEA MECH

Snorkels – SeaCure fits many removable mouthpiece snorkels on the market.

AQUA LUNG Impulse, SEAVISION

New SeaCURE Class 4

R404

Fits Apeks, Hollis 500SE and Zeagle regulators,
Rebreathers: Golem Shrimp BOV, Prism, Megladon
Kiss Gem, Poseidon Snug Fit & Titan

Color choices of: Clear, Pink, Blue or Black

New SeaCURE Class 5

R405

Fits Poseidon regulator
Black only

THE RITE BITE®

Create your own custom mouthpiece
to suit your own personal dental profile.

The most outstanding benefit
of having a properly fitted mouthpiece
is less physical exertion is needed
when using a second stage
equipped with this mouthpiece,
leaving the diver with significantly
reduced fatigue.

Simply immerse the mouthpiece
(including all of its attachments
to keep its profile in critical sections)
into 95°C / 203°F water for 30 seconds,
place it inside mouth,
biting down and sucking on it
for just 30 seconds.

Rinse with cold water and then recheck fit.
Repeat the process as necessary.

#RPH01 **TRIDENT**®

PJM100

JBL HUNTER SERIES

Frameless design accommodates a variety of faces, the matte finish silicone skirt is soft and comfortable, large field of view allows for excellent target acquisition while still being a true low volume mask

PJM130

JBL SEEKER

frameless design allows for maximum comfort on a variety of facial profiles. Its large field of view allows for excellent target acquisition while still being a true low-volume mask. Tempered glass lens features anti-fog technology for crystal clarity at all times.

PJM140

JBL X-RAY

Its wide angle bridge design was a result of studying eye movement patterns among divers, resulting in a huge field of view without the bulk of traditional masks.

The soft matte black silicone skirt cradles your face and virtually eliminates glare. Lenses are tempered glass and feature anti-fog technology.

Student kit

Swivel hose holder, versatile hook & loop multi holder, whistle, 4" x 6" slate with clip, TR-17 defog and 4 contoured weight keepers packed in hang bag

FM41

Full foot snorkel fin with power vents and soft foot pocket
Yellow, blue or black

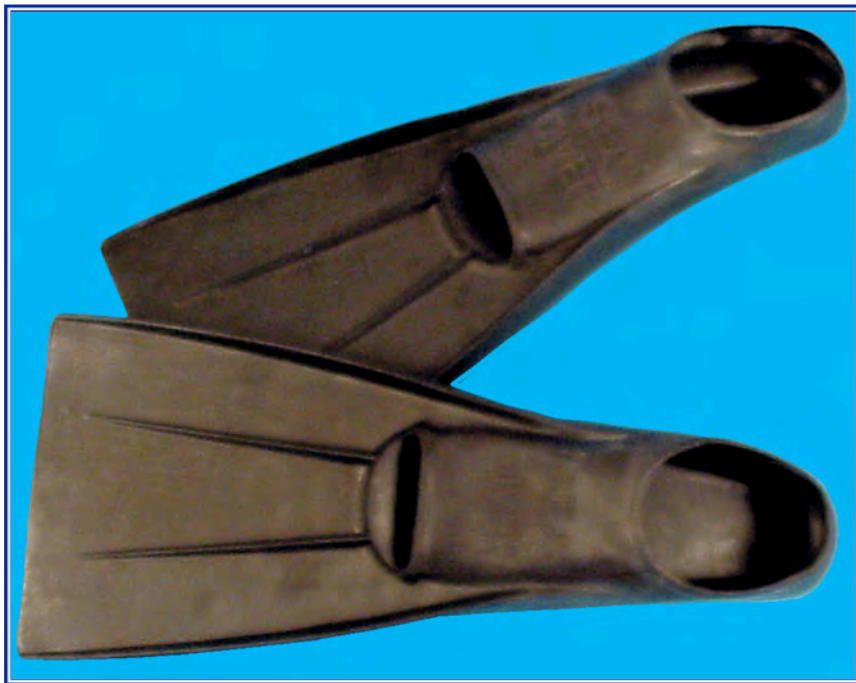

XXS (3-4), XS (4-6), S (6-7), M (8-9), L (9-10), XL (11-13)

PS94

It all starts with the foot pocket. These are engineered for comfort and optimum transfer of energy with effortless propulsion.

Two thermo rubber stiffness compounds: one for comfort, other for strength. Result is limited foot fatigue and unmatched power. Side rails offer additional stiffness channeling all power to thrust. Blades are removable and secured with screws and blade clips. Fish school pattern on blade is ideal for hunting pelagic fish.

FM38

Full foot rubber snorkel fin,
Black only

XXXS = 32-34
XXS = 34-36 or 1-2
XS = 36-38 or 3-5

SINK THE STINK

The BEST Dive Deodorizer on the Planet!

SAFE - Contains no harmful chemicals

Many competitive products contain harmful chemicals that can damage wet suits and adhesives, irritate skin or harm the environment. We use naturally occurring microbes that are trained to feed on stinky stuff like urine and bootie stank. Sink the Stink is biodegradable and hypoallergenic!

EFFECTIVE - Odors are completely eliminated

Other products use chemicals with enzymes or plant juices to temporarily mask or bind odors. The bond quickly breaks down and the stink returns. Chemical products only treat surfaces. Our microbes penetrate the neoprene, form a biofilm, and remove odors from the inside out.

AFFORDABLE - 1/2 oz. treats up to 100 Wetsuits

Sink the Stink is high tech and highly concentrated. Our harmless and hungry microbes begin to reproduce as soon as they enter the rinse tank. It doesn't get used up like chemical products.

Commercial and Retail Packaging

Commercial: 64oz. Super Concentrate, 16oz. Ultra Concentrate (64oz. Refill), 32oz. Ready to Use with sprayer.

Consumer: 32oz. Ready to use with sprayer, 4oz. concentrate (8 treatments), 1/2 oz. Super Concentrate Travel size.

GENESIS[®] **Item # TEC-8** **Black color only**

Customers love the 1000 lumen Genesis but wanted to see a less expensive, less wasteful way to keep it shining. This slim yet powerful primary light is now fueled by a single 18650 rechargeable battery with included charger. The recessed switch surround lights up with a built-in power indicator, avoiding power level surprises. The Genesis is designed primarily for underwater use, and as such we recommend against extended use topside, particularly in high ambient temperatures.

SECTOR® 7

Item # TEC-9
Black or Yellow

The Sector 7 concentrates a whopping 700 lumens of intense light into a well balanced, impressively powerful spotlight. Each set of batteries will give you 30 hours of runtime; guiding your way for countless dives. The trigger switch is easy to use with gloved hands; access momentary on via a half-pull and constant on via full pull. The trigger also locks out to prevent accidental illumination and battery drain while in transit or storage, ensuring your batteries arrive to your next dive destination fresh.

AQUA STROBE® LED

The Aqua Strobe LED promises to grab attention when activated, wherever you are. A single AA battery fuels the strobe. A simple twist operation turns the Aqua Strobe LED on and also helps to prevent accidental activation. A buoyant cone keeps the light pointed up whether found underwater or at the surface. The Aqua Strobe LED can attach to your BC, tank, or anchor line, as well as a

ROAM®

Item # TEC-2
Black only

The original dive headlamp is back, brighter than ever! Decades ago, PTEC introduced a diveable headlamp. Next, we shifted focus to brighter handheld lights. Eventually the chatter joined into one request too loud to ignore: "Bring back the SCUBA headlamp!" We began with our dive-proven platform, adding a 100 lumen LED module and custom optic that delivers the focused beam that divers need. Roam can be used as a standard headlamp, and our custom adapter allows mounting on many masks or any GoPro-style mount. Roam promises reliable, hands-free light, now brighter and more efficient than ever.

TORRENT[®]

Power meets versatility in the Torrent LED. It's small enough to be a backup light, but with a 330 Lumen Maxbright LED, Torrent is more than powerful enough to be a main source. Dive lights are not just for night diving, and the Torrent LED is our favorite dive light for looking into caves/corals, restoring lost colors at depth, and daytime wreck diving. For those who need a great backup, an efficient main source, or just all around great dive light, the Torrent LED is all at the above.

Mini-Q40 MK2 is a compact dive light with performance you've never seen from a light this small.

Equipped with a convenient push-button switch that's easy to use even with heavy gloves on, the Mini-Q40 MK2 can produce 250 lumens for 5 hours of run time. Running on four standard AA batteries, it's always easy to keep the light running, no matter where you are.

Perfect for travel and those long dive trips, the light only weighs 6 oz, measures 7.5" in length, and is easy to pack due to its small size.

A strong focused beam cuts through murky water with ease and lights up any dive, day or night.
250 lumens / 5 hour run time
Push button rear switch

C8 eLED® L2

BRIGHTER & BETTER

- UK's patented optics system puts 89% of the total lumens into the center beam, delivering outstanding seeing distance with minimal glare. Other lights only put 40% of the total lumens into the center beam.
- Unique optical design unites two high intensity LEDs into one beam with twice the intensity
- Switch between full and half power to extend battery life
- Will Not Corrode: Tough Composite Body, HYDRALUM® and Engineering Polymer components will hold up for 20 years in seawater
- Patented Lumen Booster: Improves LED efficiency by pulling heat away from the LEDs
- Proudly made in the USA

AN UPDATED CLASSIC

Often Imitated . Never Duplicated

D911

The SL4 has been the gold standard for small utilitarian dive lights for decades. Owning a SL4 is owning a piece of scuba diving history. It is compact enough to slide comfortably into a BC pocket and has a bright center spot to light up dark spaces under any type of diving condition.

This is the enhanced Mark 2 version. For the first time, we are using a digital controller to take maximum advantage of all four C-size batteries. The SL4 Mark with 600 lumens of brightness, while retaining all the great qualities that made it the most popular dive light in history. Available in Yellow only

FOR GOPRO HERO4
Amazing run time on this replacement battery
for the GoPro Hero 4 Black Edition and GoPro Hero 4 Silver Edition cameras.
You get a 90 minute rechargeable battery
that replaces the AHDBT-401 battery
that comes with the GoPro 4 Black and Silver action cameras.
These batteries are 100% compatible
with the GoPro Hero 4 action cameras.
Premium lithium-ion cell battery.

D709
Go-pro pack of 16 pieces

LEAK INSURE SACHETS:
Contain highly absorbent granules
that can hold 400 times their weight in freshwater.

If you place one or two Leak Insure sachets
in your underwater housing before a dive
you can buy valuable time to get to the surface and
save your camera if it starts to leak.

Includes a smartphone adapter, gopro
adapter and camera mount. Connect
and film up to extra 10 hours.

CX22 QUICKPOD SPORT SELFIE STICK
Extends up to 39". Includes
Smartphone adapter and
Digital Camera mount adapter.

inReach® Mini

Lightweight and Compact Satellite Communicator with GPS

inReach Mini is your go-to connection for maintaining off-the-grid contact. It's our palm-sized satellite communicator for adventures where size and weight matter. inReach Mini lets you send and receive text messages, track and share your journey and, if necessary, trigger an SOS alert to contact the GEOS 24/7 emergency response team. With inReach connectivity, your family and friends will know they can stay in touch globally.

KEY FEATURES:

NEW	COMPACT COMMUNICATOR	Small, rugged, lightweight satellite communicator enables two-way text messaging via 100% global Iridium® satellite network (satellite subscription required)
	INTERACTIVE SOS	Trigger an interactive SOS to the 24/7 search and rescue monitoring center (satellite subscription required)
NEW	WIRELESS UNIT-TO-UNIT CONNECTIVITY	Send and receive inReach messages through compatible Garmin devices, including connected wearables and handhelds
	LOCATION TRACKING AND SHARING	Track and share your location with family and friends (satellite subscription required)
	PAIR WITH YOUR MOBILE DEVICE	For access to downloadable maps, U.S. NOAA charts, color aerial imagery and more, use the free Earthmate® app with compatible devices¹
	GET WEATHER ON THE GO	Optional inReach weather forecast service provides detailed updates directly to your inReach Mini or paired mobile device²; basic and premium weather packages available (satellite subscription required)
	BATTERY PERFORMANCE	Internal, rechargeable lithium battery gives up to 50 hours of battery life in 10-minute tracking mode (battery life may vary depending on settings)
	WATER RATING	Rugged, impact resistant and water-rated to IPX7³

DESCENT™ MK1

DESIGNED FOR THE DEEPLY CURIOUS

Explore worlds of adventure with Descent Mk1. Whether you are a recreational, technical, free diver, or Closed-Circuit Rebreather (CCR), this stylish dive computer is made for your next adventure. Surface GPS navigation¹ automatically marks where you start and finish your dive, while the built-in 3-axis compass lets you easily navigate underwater. Stay aware in any situation with selectable vibration and tone alerts while you're underwater. When you're not in the water, Descent Mk1 keeps you connected with texts, emails and smart notifications².

HA02
Air gun loader for single points

Never load any speargun on land or on boat.

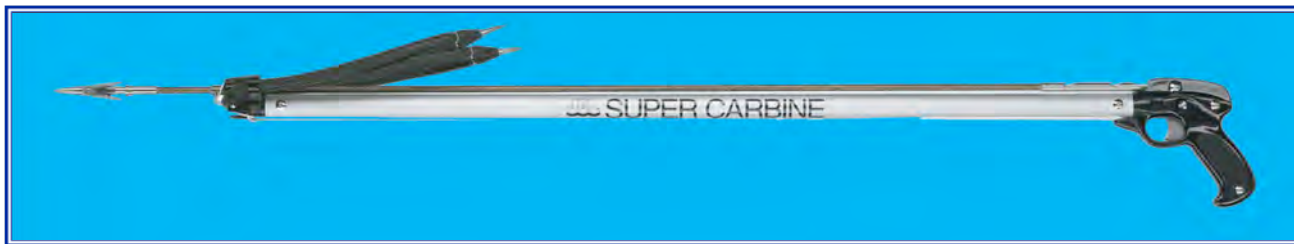

Do not fire in the air.

Before firing, be sure that the shaft is in the right position:

**if the shaft accidentally comes out (for instance if the tang of the shaft is worn and does not hook the piston properly),
do not fire because the piston can be damaged; in this case, re-insert the shaft and fire normally.**

At the end of each dive, safely fire the gun in water to release the shaft before getting out of the water.

GT-AAA PRO

Tactical Signal Light for High Intensity Application

GLO-TOOB[®]

SPECIFICATIONS

Weight: 29.5g/ 1.04oz (without battery)

Shape: Cylindrical

Viewing Angle: 360°

Light Source: High Bright LED

Battery: 1 * AAA

Battery Life: 5.5 to 27 hours

Body Material:

Polyester Resin and Aviation Aluminum

Dimensions:

76mm (Length) x 19mm (Diameter)

Working Temperature: -20°C to +55°C

DL81

GLO-TOOB GT-AAA PRO

Color choices of: YELLOW, BLUE GREEN, RED or WHITE

GT-AAA

High Intensity, Multipurpose, Waterproof Light source

GLO-TOOB[™]

SPECIFICATIONS

Weight: 34g (1.2 oz)

Shape: Cylindrical

Viewing Angle: 360°

Light Source: High Bright LED's

LED Life: Approx. 100,000 hrs

Battery Life: 4 to 15 hours (Dependent on mode)

Dimensions: 75mm x 19mm (2.95in x 0.75in)

Durability: Medium-impact resistant

Working Temperature: -15°C to +55°C (5°F to 131°F)

Buoyancy: Negative

LAZER STIK**

6" Flashing electric lightstick model
rated to 350 foot depth,
batteries are included and last up to 20 hours
Red, Blue or Green

DL56

Constant on rated to 350 foot depth, batteries are included and last up to 12 hours
Red, Blue or Green

DL07 Super safety strobe light / flashlight combination

One side is a high visibility blinking white strobe light, comes with lanyard
the other is a bright LED flashlight

DL04 Xenon flash USCG approved,
Waterproof to 12 feet for all SAR situations.
NOT FOR UNDERWATER DIVE USE

DL01

Hand held STROBE LIGHT
Visible over 3 kilometers, comes with velcro attach strap
Uses 3 x "AA" batteries,
Burn time: 72 hours, 180 ft depth rating

D910 Black only

Mini-Q40 MK2 is a compact dive light with performance you've never seen from a light this small.

Equipped with a convenient push-button switch that's easy to use even with heavy gloves on, the Mini-Q40 MK2 can produce 250 lumens for 5 hours of run time. Running on four standard AA batteries, it's always easy to keep the light running, no matter where you are.

Perfect for travel and those long dive trips, the light only weighs 6 oz, measures 7.5" in length, and is easy to pack due to its small size.

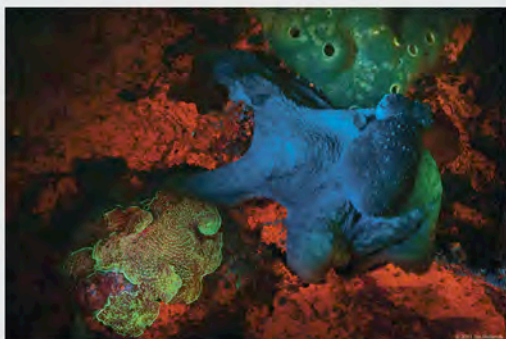

A strong focused beam cuts through murky water with ease and lights up any dive, day or night.

250 lumens / 5 hour run time
Push button rear switch

Dimensions : 7.5" x 1.6" x 1.4" / 19.05 x 4.06 x 3.56 cm
Mask strap included for hands free use
Depth rated to 100 m

WB70 3.5 lbs per pair
WB71 4.5 lbs per pair
WB72 5.5 lbs per pair
Pre filled ankle weights with hook & loop adjust band and quick release for more comfort

Even at 30 times Expected Environmental Concentration (EEC), Double dosing twice daily for 20 straight days to simulate snorkel/dive boats hitting the reef twice a day Reef Safe Sun formulas both containing Oxybenzone and without had a 0.05% change to coral health per daily visual observation per FWC Guidelines.

Coral Toxicity Experiment Using Reef Safe Sun Sunscreen Formulas

Performed by:
MOTE
MARINE LABORATORY

February 26th, 2016

"All sunscreens are not alike, and to single out one compound in the ingredients and make a blanket ruling is not proper. We found Reef Safe Sun® Care products caused no visual signs of bleaching, stress or mortality for two key species of Florida corals through our 20-day, independent test" - Dr. David Vaughan

Dr. Vaughan is the former Executive Director of Mote Marine Laboratory's Elizabeth Moore International Center for Coral Reef Research & Restoration, former manager of Mote Coral Reef Restoration program and former manager of the Protect our Reef grants program at Summerland Key, Florida. Dr. Vaughan is now the President and senior scientist of Plant A Million Corals and Associate Scientist at Chicago Field Museum.

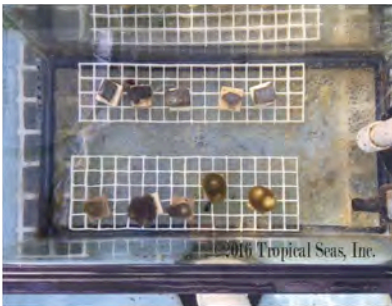

Visit: tropicalseas.com/pages/real-science

Picture taken standing next to the Reef Safe raceway at Mote Marine Tropical Laboratory. Any closer, and we would be in the ocean!

Reef Safe Raceway with 5 gallon tanks. Each raceway holds 10 - 5 gallon tanks.

Example of coral setup for each individual tank in the raceway. Each tank contains 5 each specimen of coral.

Coral health was evaluated daily per FWC guidelines and recorded. During 20 days of dosing twice per day (even at 30 times EEC), the coral showed NO signs of stress or bleaching and NO mortalities! In fact, the coral exhibited less than 0.05% variance.
